The Gaia Revolution Annual Impact Report

2026

A Letter From Our Founder

Dear Reader,

This past year was one of deep groundwork, recalibration, and quiet but meaningful progress for The Gaia Revolution. While it may not have been our most visible year, it was one of our most important.

In late 2024, we received our 501(c)(3) nonprofit determination letter from the Internal Revenue Service. In December of 2024, we held our third annual Lotus Gathering and decided to take a hiatus from Lotus in 2025 to work on building a solid organizational foundation for The Gaia Revolution. As we enter 2026, we're proud of the work we've done over the past year.

As a nonprofit devoted to personal and planetary healing, we understand that transformation often happens beneath the surface before it becomes visible above ground. This year, we leaned into that truth — strengthening foundations, planting seeds — literally and metaphorically — and preparing for a powerful next chapter.

What follows is a snapshot of the impact we made, the infrastructure we built, and the vision we are now ready to bring fully to life—with the support of our community.

Our Mission

The Gaia Revolution exists to inspire personal transformation, foster spiritual growth, and cultivate community through immersive, heart-centered experiences. We believe that individual healing and Earth healing are intrinsically connected — and that by learning, healing, and growing together, we can create a more compassionate and regenerative world.

2025–2026:

A Year of Foundation & Realignment

LOTUS GATHERING: REIMAGINING OUR FLAGSHIP EXPERIENCE

In 2025, Lotus Gathering intentionally took a one-year hiatus. Rather than signaling a pause in momentum, this decision allowed us to thoughtfully re-envision the festival for long-term sustainability, deeper impact, and stronger partnerships.

Key developments include:

- A new venue due to changes in our previous venue's insurance policy, which now does not allow events like ours (that include electronic or hip-hop music).
- Lotus Gathering is now scheduled for May 1–4, 2026 in Umatilla, Florida.
- A new partnership with an aligned production company to support professional growth and scalability
- Lotus Gathering now has a nonprofit sister festival, Create Infinite Elements, which provides opportunities to market to a lookalike crowd.

This intentional reset positions Lotus Gathering for a powerful return — one rooted in healing, artistry, education, and community connection.

EXPANDING OUR REACH THROUGH EDUCATION & ENGAGEMENT

Even during a year without our flagship event, The Gaia Revolution remained active in community education and outreach.

Festival & Community Education

- Presented workshops at three festivals, reaching hundreds of new participants.
- Facilitated learning experiences in local community spaces.
- Introduced new audiences to self-mastery tools and embodied healing.

Each of these touchpoints expanded our audience and deepened awareness of our mission, planting seeds that continue to grow.

SPIRIT RIDGE SANCTUARY & LEARNING FARM: BUILDING THE LAND-BASED VISION

Progress was made this year at Spirit Ridge Sanctuary & Learning Farm, our long-term vision for regenerative, land-based education and retreat experiences.

Accomplishments include:

- Grading and preparing land for RV sites
- Installing fencing to support early infrastructure use
- Near-completion of storm-damage cleanup across the property

Remaining infrastructure needs include:

- Trenching for power, water, and septic lines
- Continued site development to support retreats, residencies, and educational programming

With the property now largely cleared and stabilized, we are actively seeking aligned investors and donors to help bring Spirit Ridge fully online as a hub for regenerative learning and healing. We are also waiting on creek restoration work to begin this spring, thanks in part to a government clean waterways program.

STRATEGIC PARTNERSHIPS & PROGRAM DEVELOPMENT

This year marked the beginning of several key collaborations that expand our reach and impact:

- Lotus Gathering Production Partnership with Mobile Stage It - strengthening operational capacity for 2026 and beyond
- PiGMENTS Sound Healing Yoga - collaboration on West Coast, small-group retreat offerings
- Elemental Wisdom - Half-day and day-long wellness workshops held in Western North Carolina in partnership with local facilitators and aligned venues.
- Light Rising Publishing - co-creation of a transformational book-writing curriculum, set to launch in mid-2026.

Empowering the Voices of Tomorrow

In partnership with Light Rising Publishing, we developed a curriculum designed to help dreamers, healers, and builders share their stories, wisdom, and lived experience with the world. This initiative supports:

- Conscious authors and creators
- Mission-driven storytelling
- Amplifying voices that inspire healing and positive change

FINANCIAL SNAPSHOT

While this was a year focused on foundation-building rather than fundraising, we are proud of the commitment demonstrated by our leadership.

- Total Funding Raised: \$6,000
- Primary Source: Board member contributions

This underscores both the dedication behind The Gaia Revolution and the opportunity ahead as we expand donor engagement and institutional support.

Looking Ahead: 2026 & Beyond

The coming year marks a turning point, with:

- Lotus Gathering returning in May 2026 for its fourth year
- Spirit Ridge poised for new infrastructure development
- New partnerships and educational offerings launching

We are ready to scale our impact — and we cannot do it alone.
